ABOUT ME

I am a responsible and highly motivated person that is always looking for answers and to understand how things work. Fluent in three languages, lots of experience on cybersecurity, IT, the cloud and networking, able to work with clients and have been in charge of multiplatform nation-wide projects. Road cyclist amateur and coffee lover.

PROFESSIONAL EXPERIENCE

- **2019 – Present** — **CyberSecurity Project Engineer**
  Soluciones Seguras, Panama
  Configuration, implementation and troubleshooting of different cybersecurity solutions for our clients. In charge of multi-platform projects involving Firewalls, WAF, DDoS, VPNs, etc. Helping clients with critical and urgent services issues.

- **jan – sep 2019** — **CyberSecurity Analyst**
  EY France, Paris
  CyberSecurity analyst and researcher. Looking for sensitive and confidential information of our clients, measuring their exposure over the internet. Daily use of OSINT tools, data analysis tools and development languages.

SKILLS

Network Security	Networking	SaaS solutions
Firewalls	TCP/IP	Email protection
VPNs	Privileged Access	Linux/UNIX
WAFs	PKIs	Windows Server
DDoS protections	Cryptography	Forensics
Endpoint protections	Virtualization	Web Security
Link Balancers	Cloud Infrastructure	OSINT/Cyber Intel
